Notice.—The undersigned, Dentists of the city of New-York, respectfully inform their professional acquaintances and the public at large, that a person claiming to be a foreigner and a Dentist by the name and title of 'Monsieur Mallan,' late of Ludgate Hill, London, now at 84 Chambers-street in this city, uses for stopping decayed teeth the identical amalgam of mercury and silver formerly employed for the same purpose by the Messrs. Crawcour, who destroyed so many valuable sets of teeth in this city about eight years ago.

The evidence of the fact above stated is complete and incontrovertible, and may be examined by any of our fellow citizens who may call at the drug store of Doctor James H. Hart, corner of Broadway and Chambers-st., where the documents have been left by the committee.

An English gentleman who had suffered from the same species of quackery practised on him in London, called at the office of Monsieur Mallan in Chambers-street, who filled three of his teeth with his 'composition,' after which the subject of the operation went immediately to the office of a dental operator, where the stoppings were taken out in the presence of four witnesses. The substance thus taken from the teeth was delivered by three persons to Doctor J. R. Chilton, whose certificate is as follows:

"I have analysed a metallic compound left with me by Messrs. Solyman Brown, David N. Park and John B. Rich, Dentists of this city, and have found it to be an amalgam of silver and mercury. It is the same compound as was used by the Messrs Crawcour, some few years since, which I also analysed. JAMES R. CHILTON, M. D. &c.
"New-York, May 17, 1841."

The affidavits and certificates which confirm these statements, together with the product of the analysis made by Dr. Chilton, may be seen as above stated at the store of Dr. Hart, where also is deposited a copy of the London Dispatch for the 7th of March last, containing a police report in which Monsieur Mallan of Ludgate Hill is stated to have been arraigned before Sir Peter Laurie, for extortion and gross imposition, in receiving from a lady a hundred pounds sterling for a set of teeth which were utterly useless.

The subscribers might not have deemed it their duty to make an exposure of the malpractices of Monsieur Mallan, had he not already succeeded in making dupes of several individuals in this city, from one of whom he received sixty-five dollars for services performed in less than five minutes, consisting, as he declared, of thirteen stoppings, at five dollars each; whereas, when the mouth was examined shortly after by several Dentists, only two of Monsieur Mallan's fillings remained, as will appear from the certificates and affidavits aforesaid.

Printed copies of the documents to which we have referred, may be had at the office of either of the subscribers.

TO THE PUBLIC.

It will doubtless be recollected by many, that, some years ago, I was called upon to lay before the citizens of New-York a statement of the injuries resulting from the practice of two notorious individuals by the name of Crawcour, who advertised in strong language the unequaled and incomparable quality of their royal mineral succedaneum for filling teeth, which being analysed, proved to be nothing more than a vile and poisonous composition of mercury and silver; and on their being exposed, and indicted for their swindling operations, were compelled to escape from the country.

It again becomes my duty to state that the same royal mineral succedaneum is now used by Monsieur Mallan, lately arrived in this city, under the name of his celebrated mineral paste, as proved by the analysis of Dr. Chilton, a distinguished and well known chemist of this city, who was also employed to analyse the royal mineral succedaneum of the Messrs. Crawcour. E. FARMLY.

DR. F. FELIX GOURAUD'S
POUDRES SUBTILE.

HAIRY excrescences, if not the greatest, are perhaps the most common drawbacks to personal appearance. The skin may possess Parian purity of color, it may be heightened by the bloom of health, and rich with the smoothness of youth; but if these attractions are obscured by an overgrowth of Hair, the advantages they would otherwise yield their possessor, are immeasurably lost. Dr. FELIX GOURAUD'S POUDRES SUBTILE have been found highly efficient in removing such disfigurement. When applied cold, this preparation is used by some in lieu of a razor for removing the beard, which it effects with more ease, with as much rapidity, in a more satisfactory manner and at less expense, while at the same time it leaves the skin soft and delicate to the touch. To uproot the beard entirely it must be applied warm. It will also destroy the Hair when found to encroach upon the forehead, and will rid one of many little annoyances in the shape of forze, or straggling and superfluous locks. In fact, it is a valuable appendage to the toilet, and will be found such by those who may have occasion for its use. Purchasers can see the preparation tried, if required. $1 per bottle.

GOURAUD'S LEAU DE BEAUTE.—This inestimable French preparation thoroughly exterminates eruptions, tan-pimples, freckles, redness, and all cutaneous imperfections whatever; arrays the neck, hands and arms in ravishing whiteness, bestows on the complexion juvenile blooms, renovates beauty when on the decline, realizes it when before absent, and sustains its pristine splendor to the latest period of life. To mothers nursing their children, in healing soreness and reducing inflammation, and to gentlemen in allaying irritability of the face after shaving, Dr. Felix Gouraud's Eau de Beaute will be found an infallible specific.

GOURAUD'S VEGETABLE LIQUID ROUGE.—Composed materially from flowers and simples, imparts a beautiful carnation to the Skin, immoveable by rubbing with the fingers, handkerchief, linen cloth, or by perspiration. 50 cents per bottle.

☞ Prepared by Dr. FELIX GOURAUD, 67 Walker street, one door from Broadway, and for sale in this city only there. Directions accompany each bottle.

ORIGINAL
CASH TAILORING ESTABLISHMENT.
209 Broadway, American Hotel.

☞ It had long been a subject of complaint with those who were in the habit of paying ready money for their garments, that they were taxed for other's delinquencies; this led to as strict adherence to Cash sales, through which the desideratum of giving satisfaction to customers, and offering inducements to others, could alone be accomplished.

The subscriber is now in receipt of a large assortment of new and fashionable goods for spring wear, which are offered for the inspection of the Public under the assurance that the style and finish of garments will comport with any other house in the trade, whilst the reduced prices cannot fail to offer inducements to purchasers.

Strangers in the city requiring garments would do well to call before purchasing elsewhere. WM. T. JENNINGS, Agent.
